BLONDE OF THE MONTH

Jade arrived to ride on a Wednesday afternoon and saw Sygil riding a chestnut in a lesson. Jade, not able to identify her husband's own horse, asked Vee who was riding Thaba. Vee pointed out it was Gravity Plane, not Thaba. Then in Jade's lesson, Jade asked Raine, who was riding another chestnut called Cody, "When did Gravity Plane get so fat?". This was

straight after Vee had just shown her who Gravity Plane was while he was being ridden in the previous lesson. These three chestnuts are different heights and have their own distinctive markings...

One Saturday evening, while Natalie was away at the Wild Coast, Mariska was walking from her house with Camira to visit Cameron and saw a bakkie coming in at the gate. Mariska asked Rebecca who she'd let in and a confused Rebecca said that it was **Nickaela**.

When Mariska asked, Nickaela told her that she was at a friend's house having a braai and she locked her car keys in her car. She then grabbed her spare keys and left.

Turns out, before Nickaela called Rebecca to open the gate, she had called Natalie to ask if she was home and if she could she bring her spare key down to the gate for her to collect. When Natalie told her "No Nickaela, I'm not home", Nickaela asked, with noticeable irritation in her voice "Why mom, where are you?" Natalie had to remind her daughter that she was away at the Wild Coast and had been away for the past 3 days already!
